

Zadatak. Replicirati mrežu sa slike i konfigurisati GRE tunel između mreža 10.0.1.0 i 10.0.3.0.

### Tunel

```
A(config)#interface tunnel 0
A(config-if)#ip address 10.0.2.1 255.255.255.0
A(config-if)#tunnel source GigabitEthernet 0/0
A(config-if)#tunnel destination 201.150.128.1
A(config-if)#tunnel mode gre ip
```

```
B(config)#interface tunnel 0
B(config-if)#ip address 10.0.2.2 255.255.255.0
B(config-if)#tunnel source GigabitEthernet 0/1
B(config-if)#tunnel destination 201.150.0.1
B(config-if)#tunnel mode gre ip
```

### **Statičke rute**

```
A(config)#ip route 201.150.128.0 255.255.255.252 GigabitEthernet  
0/0
```

```
A(config)#ip route 177.2.0.0 255.255.255.240 GigabitEthernet 0/0  
A(config)#ip route 177.2.0.64 255.255.255.240 GigabitEthernet 0/0
```

```
B(config)#ip route 201.150.0.0 255.255.255.252 GigabitEthernet  
0/1
```

```
B(config)#ip route 177.2.0.0 255.255.255.240 GigabitEthernet 0/1  
B(config)#ip route 177.2.0.64 255.255.255.240 GigabitEthernet  
0/1
```

```
A(config)#ip route 10.0.3.0 255.255.255.0  
10.0.2.2
```

```
B(config)#ip route 10.0.1.0 255.255.255.0  
10.0.2.1
```

*Na R1 se ne konfigurišu nikakve statičke rute.*
